

## Mail Inspector 4.1.3 released

Contributed by Marc  
18.09.2005

I am happy to announce that patch 4.1.3 of Mail Inspector is released today and therefore ready for download. This releases fixes some bugs and updates some components used that hopefully fixes a couple of other access violations rarely occurred. You can update your copy of Mail Inspector by downloading the update manually or by using the integrated automatic webupdate feature.
